### **PROPOSAL**

The owners, J McRoss and C Sasaki, are applying to the Southern Midlands Council for a Permit under the Land Use Planning and Approvals Act 1993 ("the Act") to change the use of an existing studio to visitor accommodation at 1185 Native Corners Road, Campania.

*The proposal involves an existing studio located approximately 130m east of the current dwelling. An existing track provides vehicular access to the property from the end of the council-maintained section of Native Corners Road. The existing studio includes two dark-coloured converted shipping containers, arranged in an L shape with a timber deck.*

*Figure 1. Photos of the existing studio (extracted from the submitted documents)*

*The application has been lodged under the Tasmanian Planning Scheme – Southern Midlands (“the Planning Scheme”).*

The land is zoned Agriculture and is partly covered by a low-risk Landslide Hazard Area overlay.

Under the Planning Scheme, the proposal is defined as use and development for “Visitor accommodation.” A permit for this type of development is considered at the discretion of Council.

The Council gave notice of the application for public comment for 14 days. During the notification period, one (1) representation was received.

This report will assess the proposal against the relevant provisions of the Act and the Scheme. It is recommended that Council grant a permit for the change of use of an existing studio to visitor accommodation, subject to conditions.

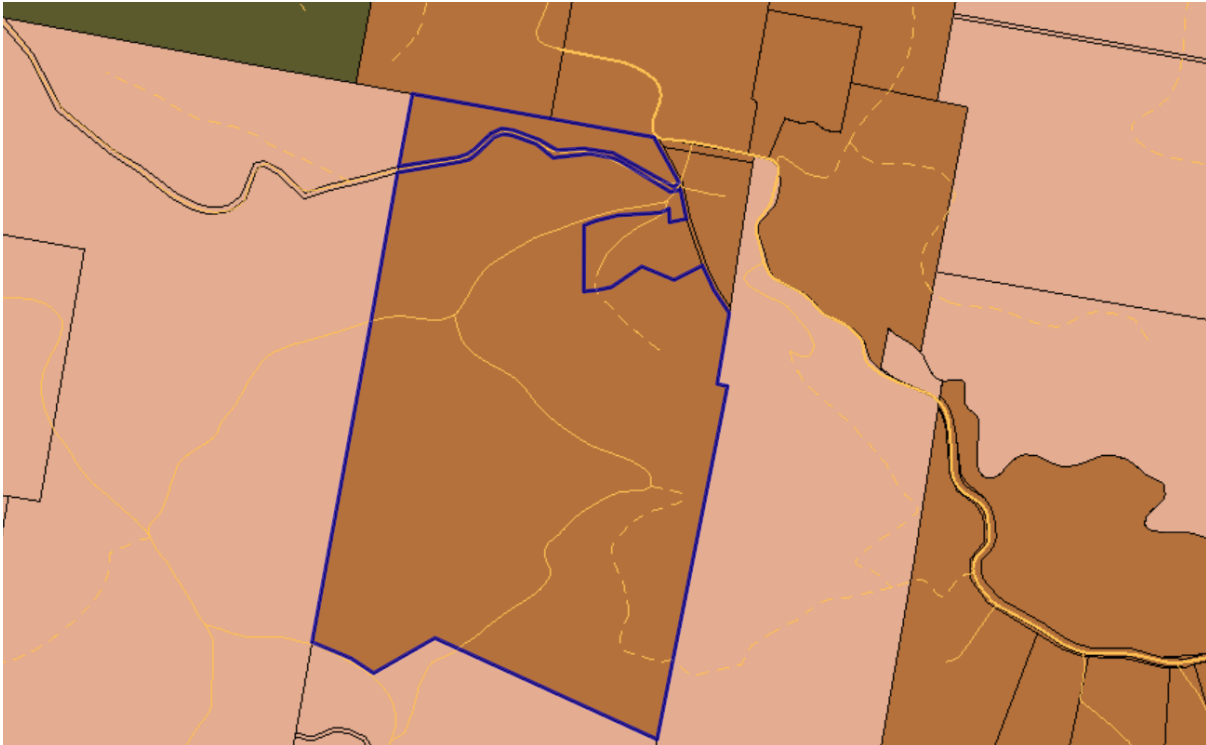

## **THE SITE**

*The site is located at 1185 Native Corners Road, Campania, has an area of 113.5ha and is described as Certificate of Title 152494/1.*

Maps 1 and 2 below show the location and zoning of the property and the surrounding area.

*Map 1 \_ Aerial image of the site. The subject land is defined by a blue line.  
Source: LISTmap (taken on 13/06/2025).*

*Map 2 \_ The subject land and the surrounding properties. The adjacent lands to the west and east are classified as Rural Zone (camel) and Agriculture Zone (brown) to the north and far east. The olive green section indicates an Environmental Management Zone. The boundaries of the subject land are marked with blue lines. Source: LISTmap (taken on 13/06/2025).*

The site is currently used as pasture with outbuildings for a Piggery. The existing studio with the outbuildings is located east of the house and on level ground. The land gently slopes from north to south, with a dam running through.

A section of Crown land runs parallel to the northern boundary, with two Rights of Way crossing the property from north to south and toward the western boundary. The surrounding area mainly consists of grazing, farming, and residential farmland.

### **THE APPLICATION**

*The Application has been submitted by the owners, J Mcross and C Sasaki, which includes plans, the Development Application form and title documents.*

### **USE/DEVELOPMENT DEFINITION**

*The proposed use and development is defined, under the Planning Scheme, as 'Visitor Accommodation':*

#### **Visitor accommodation**

*Use of land for providing short or medium-term accommodation for persons away from their normal place of residence on a commercial basis or otherwise available to the general public at no cost. Examples include a backpackers hostel, camping and caravan park, holiday cabin, motel, overnight camping area, residential hotel and serviced apartment complex.*

### **Use/Development Status under the Planning Scheme**

*The proposed use and development is defined, under the Planning Scheme, as development for Visitor Accommodation, which is Discretionary in accordance with the Tasmanian Planning Scheme – Southern Midlands.*

*As a discretionary development, the application was advertised in accordance with Section 57 of the Act.*

*Council has the discretion to grant a permit for this proposal with or without conditions, or refuse to grant a permit.*

### **PUBLIC NOTIFICATION AND REPRESENTATIONS**

**The application was advertised from the 8<sup>th</sup> of May 2025 until the 22<sup>nd</sup> of May 2025.**

**One (1) representation was received. A full copy of the Representation may be found in the enclosures.**

The issues raised in the representation and response are detailed in the table below.

<i>Representation 1</i>	<i>Council Officer Comment</i>
<p>Concerned about the poor level of amenity of the current studio with regards to heating, inside space, and the absence of a covered outdoor space, and the potential increase in usage of the nearby machine shed, which has been modified with wood heating, kitchen, and other comforts.</p> <p>Since the shed was established, significant disturbances have emanated from the site, including vehicle traffic 24 hours a day, large numbers of people gathering for 'shooting' parties, creating significant noise disturbances, and dogs barking for hours and sometimes all day.</p>	<p><i>The proposed visitor accommodation is an existing studio retrospectively approved with Planning Permit DA2021/171.</i></p> <p><i>Upon receiving the Planning Permit for the change of use, the next step will be to initiate the building permit process. This will involve converting the building classification from Class 10a (which typically refers to a structure like a non-habitable building, such as a shed or a garage) to Class 1a (which denotes a residential building designed for one or more persons to live in, such as a house or a dwelling). This process will ensure the studio meets all building codes and regulations required for visitor accommodation, ensuring safety and compliance with local standards. The proposed visitor accommodation building could accommodate a maximum of 4 persons.</i></p> <p><i>The Council has taken note of the comments regarding potential noise concerns which is considers to be unrelated to the proposed development. However, it is important to clarify that this matter cannot be addressed in this DA. The machinery sheds are existing structures used for agricultural purposes.</i></p> <p><i>The closest property boundary to the proposed visitor accommodation is over 200m away. If the noise levels associated with the use become a concern, the Council recommends that the Environmental Health Officer be contacted.</i></p>
<p>Concerned about the potential increase in road traffic. Native Corners Road is a dead-end road with a limited number of residences at the end of the road.</p>	<p><i>It is acknowledged that Native Corners Road is narrow and unsealed.</i></p> <p><i>Native Corners is a no-through road accessing a relatively small number of properties.</i></p> <p><i>However, it is a public road accessible to all users. The planning scheme does not govern or require the choice to interact with others using public roads and spaces. This is a single building proposed for visitor accommodation.</i></p>

	<i>The traffic generated will be relatively low and not require assessment under the Scheme.</i>

## ASSESSMENT – TASMANIAN PLANNING SCHEME - SOUTHERN MIDLANDS

### Agriculture Zone

*The subject site is in the Agriculture Zone. The proposal must satisfy the requirements of the following relevant use and development standards of this zone:*

<b>Use Standard</b> <b>20.3.1 Discretionary uses</b>  Objective: That uses listed as Discretionary: (a) support agricultural use; and (b) protect land for agricultural use by minimising the conversion of land to non-agricultural use.		
<b>Acceptable Solutions</b>	<b>Performance Criteria</b>	<b>OFFICER COMMENT</b>
<b>A1</b> No Acceptable Solution	<b>P1</b> A use listed as Discretionary, excluding Residential or Resource Development, must be required to locate on the site, for operational or security reasons or the need to contain or minimise impacts arising from the operation such as noise, dust, hours of operation or traffic movements, having regard to: (a) access to a specific naturally occurring resource on the site or on land in the vicinity of the site; (b) access to infrastructure only available on the site or on land in the vicinity of the site; (c) access to a product or material related to an agricultural use; (d) service or support for an agricultural use on the site or on land in the vicinity of the site; (e) the diversification or value adding of an agricultural use on the site or in the vicinity of the	<i>There is no acceptable solution for this standard. Assessment against P1 is required.</i>  <i>The proposed visitor accommodation involves an existing building, which is unlikely to adversely affect the land capability and surrounding agricultural activities. No proposed additional or significant works are involved that may impact the soil, nor increase the non-agricultural use of the site. The change in use does not alter the building footprint or further reduce available land.</i>  <i>The property is accessible via existing tracks, including reserved roads. The visitor accommodation has the same access as the property residents.</i>  <i>The proposed visitor accommodation is expected</i>

	<p>site; and (f) provision of essential Emergency Services or Utilities.</p>	<p><i>to generate minimal traffic, with an anticipated peak of only 2 vehicles per day, with a lower number expected most of the time. The proposal is not expected to affect the privacy of neighbouring properties due to significant setbacks, nor will it contribute to noise or dust due to its limited traffic generation. This is considerably less than those associated with a single dwelling which is estimated to be 7-9 vehicle movements per day (vmpd).</i></p> <p><i>Therefore, the proposed visitor accommodation is considered to comply with the Performance Criteria P1.</i></p>
<p><b>A2</b> No Acceptable Solution</p>	<p><b>P2</b> A use listed as Discretionary, excluding Residential, must minimise the conversion of agricultural land to non-agricultural use, having regard to: (a) the area of land being converted to nonagricultural use; (b) whether the use precludes the land from being returned to an agricultural use; (c) whether the use confines or restrains existing or potential agricultural use on the site or adjoining sites.</p>	<p><i>There is no acceptable solution for this standard. Assessment against P2 is required.</i></p> <p><i>The proposed visitor accommodation comprises an existing studio located near the northern boundary of the property, situated on a cleared pasture. The neighboring properties to the north are setback at a considerable distance, with over 300m separating them from the studio and more than 200m to the eastern property boundary. Clusters of vegetation line the access road adjacent to the proposed visitor accommodation.</i></p> <p><i>Additionally, a dam and dense vegetation create a natural buffer between the</i></p>

		<p>accommodation and the northern property boundary. This considerable distance effectively reduces potential impacts on nearby residents and ensures privacy for both the visitor accommodation and neighboring properties.</p> <p>Therefore, the proposal complies with Performance Criteria P1.</p>

## 21.4 Development Standards for Buildings and Works

### 21.4.2 Setbacks

Objective:

That the siting of buildings minimises potential conflict with use on adjoining properties

Acceptable Solutions	Performance Criteria	OFFICER COMMENT
<p><b>A1</b> Buildings must have a setback from all boundaries of: (a) not less than 5m; or (b) if the setback of an existing building is within 5m, not less than the existing building.</p>	<p><b>P1</b> Buildings must be sited to provide adequate vehicle access and not cause an unreasonable impact on existing use on adjoining properties, having regard to: (a) the bulk and form of the building; (b) the nature of existing use on the adjoining properties; (c) separation from existing use on the adjoining properties; and (d) any buffers created by natural or other features.</p>	<p><i>The proposed visitor accommodation building is well setback from adjoining property boundaries and developments. It is over 200m away from the nearest adjoining neighbouring property boundary, easily complying with A1.</i></p>

- 6) Prior to the commencement of the use, the internal driveway and areas set-aside for parking and associated access and turning must be designed, constructed and maintained to avoid dust or mud generation, erosion and sediment transfer off site or de-stabilisation of the soil on site or on adjacent properties to the standard required by Council's Municipal Engineer.

### Stormwater

- 7) Stormwater drainage from the proposed development must be retained on site (or) drain to a legal point of discharge to the satisfaction of Council's General Manager and in accordance with a Certificate of Likely Compliance or Plumbing permit issued by the Permit Authority in accordance with the Building Act 2016.

- a) Minimise site disturbance and vegetation removal;
  - b) Diversion of up-slope run-off around cleared and/or disturbed areas, or areas to be cleared and/or disturbed, provided that such diverted water will not cause erosion and is directed to a legal discharge point (e.g. temporarily connected to Council's storm water system, a watercourse or road drain);
  - c) Sediment retention traps (e.g. sediment fences, straw bales, grass turf filter strips, etc.) at the down slope perimeter of the disturbed area to prevent unwanted sediment and other debris escaping from the land;

## 12.4 Planning (Other)

### 12.4.1 Bagdad Mangalore Structure Planning Project

**Author(s):** COUNCIL PLANNING CONSULTANT (DAMIAN MACKEY)  
MANAGER DEVELOPMENT & ENVIRONMENTAL SERVICES (GRANT FINN)

**Date:** 17 June 2025

#### **PURPOSE**

The purpose of this report is to seek endorsement for the Draft Bagdad Mangalore Structure Plan to proceed to community consultation.

#### **BACKGROUND**

In the second half of 2024, Council resolved to initiate a project to develop a new Bagdad-Mangalore Structure Plan, and subsequently appointed a consultant team lead by Jensen Plus following an Expression of Interest process.

Council allocated funding of \$50,000 in the 2024/2025 financial year, with additional funding of \$30,000 in the following financial year, totalling \$80,000.

Council established a Project Steering Group, consisting of two elected members, two community representatives and relevant council officers.

#### **OUTPUTS SUMMARY**

In summary, the key project outputs specified in the Project Brief are:

*Recommendations generally should be cognisant of the three roles Council may play in their implementation: undertake, facilitate or advocate. For example, in regard to recommended new community facilities, if within Council's purview such recommendations can inform Council's future works program and budgeting or support grant applications to State or Federal Government. Where such facilities are State-level responsibilities, then the recommendations will be used to form the basis of Council's lobbying efforts.*

*Specifically, project outputs will be:*

- *A new Structure Plan for the Bagdad-Mangalore valley that will:*
  - *Set out a local settlement strategy, including growth scenarios, key functions and relationships between of the localities through the valley.*
  - *Set out an agreed vision for the valley that will encapsulate the collective vision of members of the community, with the process of developing the structure plan fully involving local residents, ensuring that the recommendations reflect agreed visions, instilling a sense of shared community purpose and action.*
  - *Include an open space plan with recommendations pertaining to pedestrian/cycle ways, parks and recreation facilities, green corridors and wildlife corridors.*

- *Identify desirable zone changes and articulate the strategic planning rationale underpinning these changes.*
- *Provide recommendations that relate to community infrastructure and/or facilities that may be missing or inadequate and where there is a demonstrated need.*
- *A Settlement Growth Boundary, identifying a 30 year land supply for the area.*
  - *Note that a first draft of a Settlement Growth Boundary will be required in Stage 1, (by February 2025), to feed into the Review of the Southern Tasmania Regional Land Use Strategy as soon as possible.*
- *A Local Road Network Plan, noting the 'Limited Access' designation of most the Midland Highway through the area.*
- *In conjunction with TasWater, options for the area's sewerage treatment system.*
- *Recommendations are to be presented in a way that enables them to directly feed into the review of the Southern Tasmania Regional Land Use Strategy.*

## THE DRAFT STRUCTURE PLAN

The Draft Bagdad Mangalore Structure Plan 2025 is attached.

The Project Steering Group notes that a number of options are provided within the plan, and there are some issues that need further community input before Council can determine the most appropriate way forward.

The community should therefore be given every encouragement to consider the contents of the Draft Structure Plan and provide feedback.

## PROPOSED COMMUNITY CONSULTATION

It is proposed that community consultation include the following:

- A five-week period.
- Information available at the Kempton and Oatlands offices.

- A display at the Bagdad Community Club for the duration.
- Information drop-in sessions, held at the Bagdad Community Club.
- Article in Council newsletter and community newspaper.
- Notifications sent to those who engaged with the first stage community consultation and for whom we have email or postal addresses.
- Notifications on Council's website and social media.
- Creation of a questionnaire, setting out key questions.
- Request for written submissions or completion of the questionnaire.

### **OPTIONAL CONSULTANCY TASK: ATTENDANCE AT DROP-IN SESSIONS**

Council and Project Working Group representatives could comfortably run the community information drop-in sessions.

Alternatively, these could be run by the Project Consultants, with Project Working Group representatives in a supporting role.

Attendance by the Project Consultants at the information drop-in sessions in this phase of the project was an 'optional extra'. The costs would be \$4,060 time and travel + \$1,700 disbursements = \$5,700.

The original project budget was \$80,000.

The Jensen Plus team proposed \$70,000, plus another \$10,000 if Council determined that an agricultural land assessment was necessary. This was the case, so the full budget of \$80,000 has been allocated.

Attendance by the Project Consultants at the forthcoming information drop-in sessions would therefore require additional funding from Council's budget.

The view of the Project Working Group is that, whilst Council representatives could run the community information drop-in sessions, it would be ideal if the Project Consultants could be there.

This is a matter for Council's determination.

### **CONCLUSION**

The Project Steering Group recommends that the Draft Bagdad Mangalore Structure Plan, as attached to this report, be subject to community consultation, and that the Project Consultants be engaged to attend and run the community information drop-in sessions.

### **RECOMMENDATION**

#### **THAT:**

- A. The Draft Bagdad Mangalore Structure Plan, as attached to this report, be subject to community consultation.**

### WEIGHTING OF ASSESSMENT CRITERIA

The Assessment Criteria were previously determined through the development of the Project Plan. The Project Steering Group allocated the following weighting:

Assessment Criteria	Weight
Ability to meet desired consultancy tasks and deliver project outcomes and outputs on time;	20 pts
Experience in public consultation, including face-to-face meetings, public meetings and group workshops;	20 pts
Project methodology;	10 pts
Relevant skills, qualifications & experience;	10 pts
Understanding and experience in strategic land use planning, economic development, planning public open spaces;	20 pts
Value for money.	20 pts

### STANDARD INTERVIEW QUESTIONS

Criteria 1: Ability to meet desired consultancy tasks and deliver project outcomes and outputs on time.	Number of your team's key people are based on the mainland. With a project like this, the dates for key meetings and on-ground tasks sometimes have to be juggled. How flexible is your team, in terms of being in Tasmania on the necessary dates? <i>(Note: not for GHD)</i> .
	In recent decades in Tasmania, rezoning applications for new Rural Living zoned land have generally been viewed negatively at the Tasmanian Planning Commission. (Reference 1.4.3 – 5 of the draft Tasmanian Planning Policies). In what circumstance could you build a strong case for such a rezoning proposal?
	The structure planning process may conclude that areas currently zoned Rural Living should be rezoned Low Density Residential, with lot sizes capable of accommodating on-site waste wastewater disposal systems. In what circumstance could you build a strong case for such a rezoning proposal?
	An early output of the project will be a preliminary draft Settlement Growth Boundary, which we will need by February 2025 to fit in with the review of the Southern Tasmania Regional Land Use Strategy. How can we (council and the consultants) work to achieve this so early in the process?
Criteria 2: Experience in public consultation and engagement, including face-to-face meetings, public meetings and group workshops.	We envisage the project will involve interviews with key stakeholders, who may be key community members, developers or infrastructure provider representatives. Do you prefer to do these in-person or online? Is there a difference in the quality of the information that can be obtained?
	What is the degree of flexibility in the community consultation program? The Mangalore community, since becoming aware of this project, have let Council know they have their own particular issues.

<p>Criteria 3: Project methodology.</p>	<p>We envisage this project will involve one or two community planning workshops. Please describe how you run these? What is your 'workshop methodology'?</p> <p>Can you further describe your overall methodology, and tell us what advantages it has over alternative approaches:</p> <ul style="list-style-type: none"> <li>• GHD's 'loveable' approach.</li> <li>• Jensen Plus's 'co-design workshop' approach.</li> <li>• Realm's 'collaborative' approach.</li> <li>• Niche's 'art of Place Making'</li> </ul>
<p>Criteria 4: Relevant skills, qualifications &amp; experience.</p>	<p>It is possible the structure planning process may conclude that poorer quality land currently zone Agriculture should be rezoned to Rural Living, Low Density Zone, Village or some other zone. Desktop analysis of LIST data may not be sufficient to Tasmanian Planning Commission that the land should not be Agriculture. Have you access to the skills of an agronomist, and could these be accessed without exceeding the maximum project budget of \$80,000. <i>(Note: modify for Jensen Plus)</i></p> <p>If, through the structure planning process, we conclude we would like to see a new side road access onto the Midland Highway, how would you suggest we best tackle this issue with the Department of State Growth, given the Limited Access Declarations along the highway?</p>
<p>Criteria 5: Understanding and experience in strategic land use planning, economic development, planning public open spaces.</p>	<p>For Bagdad-Mangalore, how would you suggest we can seek to boost economic development, given its particular characteristics and assets?</p> <p>The area has the Midland Highway cutting through it, with waterways running mostly parallel to the highway. Council and the community wish to consider creating linear parks / paths, possibly along the waterways and certainly along the highway to complete the existing walking/cycling path so that it links to the greater Hobart network at Brighton. Can you tell us about your experience with any similar projects?</p>

### 15.2.1 NRM Unit – General Report

**Author:** NRM PROGRAMS MANAGER (MARIA WEEDING)

**Date:** 17 JUNE 2025

#### DETAIL

- Maria continues to work on a few Lake Dulverton and Callington Park matters, including Maria and Helen meeting one resident that had raised many queries in relation to the history of the lake. Follow up emails with Parks and Wildlife have occurred since the last meeting of the Lake Committee. Limited progress on sorting the notion of either upgrading / replacing/ deleting the 1980 Lake Dulverton Management Plan. Made some progress on other matters raised at the last meeting of the committee, nothing confirmed to report yet.
- Helen continues work in assisting David Richardson as and when time permits. Currently Helen is continuing to work on Work Place Health and Safety documents. This is quite time consuming work.
- Maria attended a wetlands field day at Moulting Lagoon on the East Coast – put on by NRM South and Tasmania Irrigation. Interesting day. Some of the discussion was around the lack of water flowing in to the lagoon in recent times. Not unlike Lake Dulverton, there are other areas of the state suffering from very low rain fall totals to date for the 2025 year.
- Maria and Helen organised some additional signage for the stop over camping area in relation to the shower block on the Esplanade, and the dump point location on Wellington Street.
- Monitoring of the use of the toilet at Callington Park shows that there has been 9763 uses of the toilet since 10<sup>th</sup> February 2025. The intense times for use seem to consistently be between 2.00 p.m through to 8.00 p.m. in the evening.
- The Weeds Officer Mary proved the following report for Council to note:

Report period: 15<sup>th</sup> April – 16<sup>th</sup> June 2025 (Two months combined).

Note: Easter break 21<sup>st</sup> and 22<sup>nd</sup> April, King's Birthday 9<sup>th</sup> June, annual leave between Monday 5<sup>th</sup> May and Sunday 25<sup>th</sup> May.

#### Enquiries/feedback

Attempted to contact a couple of local farmers about an upcoming invasive grasses field event on 21<sup>st</sup> and 22<sup>nd</sup> June (hosted by the Derwent Catchment Project). When phone calls and email failed, a letter was sent!

#### Site visits

Cut & pasted a heap of smallish broom amongst the native vegetation plantings on and around Des' Bank.

Cut & pasted a small infestation of tree lupin on the outskirts of Oatlands. The adjoining property owner came out while I was finishing off and was quite happy for me to keep going along her fence lines.

Revisited a site of previous Carrot weed eradication efforts at the end of Church Street, Oatlands: no sign of the weed.

Inspected various sites along Interlaken Road where some weed eradication work was recently carried out. All the Green nightshade was gone, and only a few Great mullein and Wild mignonette remained. Contacted the contractor and he followed up to hit the stragglers and one willow seedling. The Ragwort driveway right on the SMC boundary had only a single ragwort plant (now removed).

Cut & pasted a single Buddleia plant near the northern entrance of Kempton. Butterfly bush is really starting to become noticeable as a roadside weed further north in Tasmania; a potential future SMC weed best nipped in the bud.

Assisted with continuing broom/gorse/briar rose control along the Dulverton Track.

Preparation work for about 50 plants to replace those that have died around the tanks at the Pound.

Checked the plantings at Mangalore recreation ground/arena: no further plants have died and the swamp gums are thriving. However, there is quite a lot of water in and on the southern end of the plantings, and the next crop of weeds has started sprouting. Replacement plants to be sourced and put in later.

### **Communication**

Submitted an article to Southern Midlands Regional Newsletter on Garden Weeds and Foxglove regulations.

A letter also sent to a couple of Tea Tree residents regarding the invasive grasses event on June 21<sup>st</sup>.

### **Weeds Action Fund**

Received notification of the next round of WAF grant funding on the morning of my last half day of work before going on leave, with submissions due the day of my return. A flurry of activity occurred with various Lead Organisations vying for a chance to win one (or more) of the six Projects. Awaiting results to see who we will be working with on Serrated tussock and Stemless thistle.

Spent some time completing the acquittal report for the WAF serrated tussock survey undertaken late last year.

### **Roadside Weeds**

Coordinated an expert contractor to control the more densely impacted Chilean needlegrass roadsides in the Coal Valley.

### **Research**

Contacted a fellow weeds officer from Kingborough Council regarding the design of “No slashing/disturbance” signs for possible future use on selected roadsides (especially Chilean needle grass, which has stem seeds readily spread by slashers even when there are no normal seeds on the plant).

Checked the database of Serrated tussock and Stemless thistle to ensure all is up-to-date and ready for liaison with WAF lead organisation/s later this year.

Checked out a few planted areas around Oatlands for frost damage; it is amazing how severe some of the damage was, and how variable. For example, the Blackwood trees on the northern side of the tanks at the Pound were quite badly affected, and those on the southern side, hardly at all. Other sites had one plant badly affected but another nearby (of the same species) untouched.

### **Related and extra-curricular activities**

Attended, with a local Landcare member, a Catchment Action Planning (Lower Coal sub-catchment) workshop at Richmond on June 14, between 10am – 3pm, organised by Landcare Tasmania. This covered Conservation Action Planning (adaptive management), mapping, floods, local values, threats and strategies for local issues. A most interesting day.

Liaised with Graham Green regarding the uploading of 90 waypoints taken over Spring/Summer 24/25. This information is uploaded into the Spectrum Spatial data base by a third party.

### **Weed of the Week**

Cootamundra wattle, cotoneaster, Elisha's tears, firethorn and English ivy displayed in Oatlands council office.

Just for something different, on the week after the Campbell Town show, a large vase of "wild" flora was displayed (it actually got a second place in its class at the show). A folded piece of paper encouraged ratepayers to guess how many Tasmanian natives were displayed in the vase. Only two of the seven plants were native.

### 15.6.1 Dogs Home of Tasmania – Proposed Changes and Fee Structure for Pound Services

**Author:** ANIMAL CONTROL OFFICER (RACHEL COLLIS)

**Authorised by:** MANGER DEVELOPMENT & ENVIRONMENTAL SERVICES  
(GRANT FINN)

**Date:** 16 JUNE 2025

#### Enclosure(s)

*Dogs Home of Tasmania (DHoT) – Email correspondence dated 29<sup>th</sup> May 2025*

#### ISSUE

To provide an update in relation to the significant increase in fees proposed by the Dogs' Home of Tasmania (DHoT).

#### BACKGROUND

Council, at its last meeting, were informed about the proposed significant increase in fees proposed by the Dogs' Home of Tasmania (DHoT).

Council considered a number of options and resolved as follows:

- a) *THAT the report be received and information noted;*
- b) *Council further negotiate with the Dogs Home of Tasmania but with the intent of entering into a one-year trial agreement at a fixed fee (no greater than \$7,200); and*
- c) *Council officers proceed to investigate the other options that are detailed in this report during this one-year trial period.*

#### DETAIL

Following on from that meeting, on the 29<sup>th</sup> May 2025 the DHoT corresponded with Council and advised the following:

*Just to provide a bit of transparency, we have had feedback from other Councils who have expressed that the change is quite significant which we are also aware of & therefore have been offering a further 2 options other than the ones presented in the initial document sent to Council.*

It is evident following Council's feedback and concern regarding the financial impact of those options — particularly given that Council impounds are no more than **5 dogs per year**, with an average stay of **78 days** — the Dogs' Home has since offered **two revised options**:

#### Option 1: Transitioned Annual Fee (Phased Increase)

- Year 1: \$2,400
- Year 2: \$4,800
- Year 3 and ongoing: \$7,200

#### Option 2: Per Dog Fee

- \$450 per dog impounded

- Invoiced per dog, using the current invoicing method

Officer Comment:

Both new options represent a more balanced approach to cost recovery and allow Council greater flexibility in managing its Animal Management budget.

Option 1 provides cost certainty but may result in Council paying significantly more than necessary for a low number of impounded dogs.

Option 2 would cost Council approximately \$2,250 per year (based on 5 dogs), which is more affordable than the flat fee options and more accurately reflects actual usage.

**RECOMMENDATION:**

- a) The report be received and information noted;
- b) Council accepts Option 2, the \$450 per dog fee, as this more accurately reflects historical usage, maintains flexibility and cost-efficiency for low-volume impoundments.
- c) Alternatively, choose to adopt Option 1 - the transitioned annual fee.

Hi Grant,

Thank you for your very prompt response.

Just to provide a bit of transparency, we have had feedback from other Councils who have expressed that the change is quite significant which we are also aware of & therefore have been offering a further 2 options other than the ones presented in the initial document sent to Council.

Option 1. Is to transition the fee over 3 years. Year 1 would be \$2,400, year 2 \$4,800 & year 3 \$7,200.

Option 2 is an agreed figure of \$450 per dog which we would invoice the same way we do now.

As we said happy to have a chat via Teams or in person if you had any further questions.

Kind Regards,

#### **17.1.1 Policy Review – Payment of Councillors Expenses and Provision of Facilities Policy**

**Author:** GENERAL MANAGER (TIM KIRKWOOD)

**Date:** 21 JUNE 2025

**Enclosure(s):**

*Updated Payment of Councillors Allowances, Expenses and Provision of Facilities Policy*

#### **ISSUE**

Council to consider (and adopt) the revised 'Payment of Councillors Expenses and Provision of Facilities' Policy.

#### **BACKGROUND**

Council's '*Payment of Councillors Expenses and Provision of Facilities Policy*' was last reviewed in 2021 and is due for review.

#### **DETAIL**

In accordance with Schedule 5 of the new *Local Government Act 1993*, all councils must have in place a policy governing the reimbursement of expenses incurred by councillors in carry out their duties of office.

Schedule 5 details:

##### **1. Expenses**

(1) A council, on or before 1 January 2006, is to –

(a) adopt a policy in respect of payment of expenses incurred by councillors in carrying out the duties of office; and

(b) make a copy of the policy available for public inspection.

(2) A councillor is entitled to be reimbursed for reasonable expenses in accordance with the policy adopted under [subclause \(1\)](#) in relation to –

(a) any prescribed expenses; and

(b) any other expenses the council determines appropriate.

##### **2. Loan of services, facilities and equipment**

A council may decide to provide support services, facilities and equipment on loan to a councillor on any conditions it considers appropriate.

The need to review the existing Policy at this time is also influenced by the following:

1. Recent advice received from the Office of Local Government which followed a Supreme Court ruling relating to the payment of legal fees by a Tasmanian Council. The Court ruled that a Council cannot meet the legal costs associated with a case for the personal benefit of a councillor or an employee; and
2. Updates / clarification around the Code of Conduct provisions which clearly provides advice that it is not open to Council to determine via a policy whether it is appropriate to reimburse a councillor's legal expense associated with Code of Conduct complaints. The costs are to be borne by the councillor, as required by section 28ZN of the *Local Government Act 1993*.

Specifically in relation to legal fees, further advice sought by the Local Government Association of Tasmania

**Human Resources & Financial Implications** – Councillor allowances are prescribed in the *Local Government Act 1993*. Councillor expenses are budgeted for on an annual basis.

**Community Consultation & Public Relations Implications** – N/A.

**Policy Implications** – Policy document.

**Priority - Implementation Time Frame** – Immediate effect.

## RECOMMENDATION

**THAT Council adopt the revised 'Payment of Councillors Expenses and Provision of Facilities Policy' with immediate effect.**

**Budgeted Operating Income and Expenditure 2025/26**

The net operating result is a deficit of \$486K exclusive of capital funding and net revenue from sale of assets. This compares to a \$382K deficit forecast for 2024/25.

## REVENUE

### Revenue – Rating Income

**General Rate** - The Budget is based on a 3.5% increase in the General Rate, plus an allowance of growth in the rate base (i.e. new development).

This compares to the LGAT Cost Index of 3.13%, and CPI for the period ending March 2025 Hobart of 1.4% and weighted average all capital cities of 2.4%.

*Note: The LGAT provided Council Cost index (CCI) is a tool to assist councils to appropriately set rates to reflect the costs of providing assets, service and support for their communities.*

*The CCI differs from the Consumer Price Index in that it provides an indication of how Council expenditure might change over a time period even though what council is spending money on has not changed.*

*The CCI is based on ABS data. The CCI formula comprises: wage price index (WPI (50%), road and bridge construction index (30%) and the consumer price index (20%).*

*The CCI of 3.13% follows 3.74% (2024) and 8.11% (2023).*

**Fire Service Levy** – the Fire Service Levy is an amount determined by the State Fire Commission under the *Fire Service Act 1979*, which Council is required to collect. The Levy is paid direct to the Commission, less retention of 4% commission.

Fire Service Levy	2024/25	2025/26
Oatlands and Kempton Volunteer Fire Brigade Rating District	0.303363c in \$AAV (Minimum \$49)	0.28322c in \$AAV (Minimum \$50)
Rural Land Other	0.277687c in \$AAV (Minimum \$49)	0.282679c in \$AAV (Minimum \$50)

The total levy to be collected in 2025/26 is \$296,700 – an increase of \$8,969 or 3.24%.

**Waste Management Levy** – this is a charge levied on all rateable land. Multiple charges are levied where there is more than one dwelling on the property capable of being occupied.

Waste Management Charge	2024/25	2025/26
	\$300 (Occupied)	\$305 (Occupied)
	\$100 (Vacant Allotment)	\$100 (Vacant Allotment)

The need to increase the Waste Management Charge is influenced by:

- The Tasmanian Government has introduced for a Waste Levy that Council must collect. The Levy is based on Council's refuse tonnage at a cost of \$45.84 per tonne (\$44.88 per tonne in 2024/25).
- The ever-increasing amount of waste that this being disposed of at the Stations and the resultant transport / disposal costs; and
- Significant increase in the costs per tonne being levied at the landfill disposal sites.

**Household Collection Charge** - This charge is only levied on properties that receive the fortnightly collection service. The level of charges must be sufficient to meet the total cost of providing the services (both domestic and recycling).

Household Garbage and Kerbside Recycling Charge	2024/25	2025/26
	\$248	\$272

The increase in annual charge reflects the higher cost of collection and subsequent disposal at landfill and/or the recycling centre.

**Revenue - Operating Grants (excludes Capital Grants)** - Budgeted Operating Grant Income of \$4.745 million (confirmed Grant of \$5.544 million in 2024/25).

The total budgeted amount relates solely to the General Purpose Financial Assistance Grant (FAGS) provided by the Australian Government. An increase of 4.0% has been forecast.

**Revenue Other** - The 2025/26 Budget for Other Revenue (\$161,700) relates to Heavy Vehicle Licence Fees (\$11,700) and Public Open Space contributions (\$150,000). The previously budgeted MAIB Reimbursements for the SES Road Crash Rescue Unit are now paid directly to the State Emergency Service.

**Investment Revenue from Water Corporation** - The 2025/26 Budget for Investment Revenue (\$182,400) relates to distributions received from the Tasmanian Water Corporation (TasWater). The level of distribution is determined by the percentage of ownership. The Southern Midlands Council holds a 0.76% ownership in TasWater.

## EXPENDITURE

**Employee Expenses** - Employee expenses are budgeted to increase by \$254,744 (includes on-costs). This represents a 4.4% increase. This is due to:

- a) A salary increment payable from 1<sup>st</sup> July 2025; and
- b) An allowance to provide for increased servicing due to development within the municipal area.

The amount of Employee Expenses in the Operating Budget is also influenced by the extent of Capital Works undertaken by Council employees (i.e. Wages are allocated in the Capital Budget).

**Materials & Contracts** - The budgeted amount of \$4.196 million represents a 4.9 percent increase above the forecast 2024/25 allocation. This is mainly due to:

- a) The continued increase in payments to external Contractors to provide waste collection, transport and disposal services; and
- b) General increase in the cost of purchasing materials and engaging contractors in the current market.

**Capital Grant Funding** - Council has budgeted to receive \$1.065 million in total, which totally relates to the Australian Government's 'Roads to Recovery' Grant Program.

## RECOMMENDATION

**Date:** 16 JUNE 2025

**Attachment(s):**

*Schedule of Fees and Charges 2025-2026*

#### INTRODUCTION

The purpose of this report is to confirm and adopt the Schedule of Fees and Charges for the upcoming 2025-2026 financial year.

#### BACKGROUND

In order to charge a fee for goods and services it is a requirement of Division 7 of the *Local Government Act 1993* ("the Act") that Council must first specify the fee and include such a fee in the "Schedule of Fees and Charges". An extract from the Act is provided as follows:

##### *Division 7 - Fees and charges*

##### *205. Fees and charges*

- 1) In addition to any other power to impose fees and charges but subject to subsection , a council may impose fees and charges in respect of any one or all of the following matters:*
  - a. the use of any property or facility owned, controlled, managed or maintained by the council;*
  - b. services supplied at a person's request;*
  - c. carrying out work at a person's request;*
  - d. providing information or materials, or providing copies of, or extracts from, records of the council;*
  - e. any application to the council;*
  - f. any licence, permit, registration or authorization granted by the council;*
  - g. any other prescribed matter.*
- 2) A council may not impose a fee or charge in respect of a matter if –*
  - a. a fee or charge is prescribed in respect of that matter; or*
  - b. this or any other Act provides that a fee or charge is not payable in respect of that matter.*
- 3) Any fee or charge under subsection (1) need not be fixed by reference to the cost to the council.*

##### *206. List of fees and charges*

*A general manager of a council is to –*

- a) keep a list of all fees and charges fixed under this Division; and*
- b) make the list available for public inspection during ordinary hours of business at the public office.*

##### *207. Remission of fees and charges*

*A council may remit all or part of any fee or charge paid or payable under this Division.*

In considering the fees and charges Council are reminded that the schedule of fees for the schedule of fees for Animal Control was adopted by Council separately at the May 2025 meeting. Accordingly these components of the proposed schedule are not under consideration.

## DETAIL

The fees and charges of the Southern Midlands Council are captured in the succinct document *Schedule of Fees and Charges: 2025-2026*. The document is typically reviewed each financial year to account for changes to legislation, review of services and review of charges in line with other Councils in Tasmania.

The current *Schedule of Fees and Charges: 2024-2025* is based on the Schedule adopted by Council in June 2024 with the exception of Animal Control and the Oatlands Aquatic Centre fees that have been updated and approved during 2024-25.

## DISCUSSION

Each individual fee has been reviewed and adjusted where necessary.

In some cases a percentage increase has been applied, however where necessary, the charge has been altered to reflect the actual cost of providing the service, taking into account time and travel costs where applicable.

Charges are also based (and influenced) by the external costs incurred by Council e.g. advertising; disposal of waste and recycling / disposal of tyres etc.

**Human Resources & Financial Implications** – Refer comment provided.

**Community Consultation & Public Relations Implications** – The adopted Fees will be displayed on the website and are available at each Council Office. Ratepayers and members of the public can also request a copy of the Schedule.

**Priority - Implementation Time Frame** - The 2025-26 Schedule of Fees and Charges if adopted by Council will be effective from 1<sup>st</sup> July 2025.
