

TasWater community presentation

TasWater is accelerating the resolution of water quality issues for Tasmanian townships where water cannot be consumed directly from the tap. We intend to complete the program by the end of August 2018.

We have evaluated a range of options for dealing with water quality issues in Colebrook to arrive at an appropriate and sustainable solution.

TasWater and the Southern Midlands Council have organised a community meeting to present the results of the assessment for supplying safe drinking water to the Colebrook community and to detail the next steps in the program to remove the Boil Water Alert.

Where: **Colebrook Tavern**

When: **Tuesday, 25 July 2017**

between 6.30 - 7.30pm

Ph: 13 6992
